

PRONTO-Xi™ Asian Customer Review

"We can analyze business performance and product profitability, customer profile and credit limit, stock availability – at anytime and in any way. In fact, our managing director can access just about any company information on a real-time basis, via PRONTO-Xi even when he is overseas."

Heng Chin Hoon - Deputy General Manager
North Malaya Engineers Trading Co Sdn Bhd, Malaysia

"With pertinent information easily at our fingertips, we have been able to better respond to our customer needs and manage our inventory levels to reduce obsolete excess stock. Our organization-wide integration of data and process flow has brought about significant cost savings to us. The automation of paper-based processes, improved inventory accuracy through real-time inventory control, as well as forecasting capabilities for demand prediction – are some of the primary areas where we are experiencing cost savings."

Lye Cheong Heng - Factory Manager
Bridgestone Armstrong (M) Sdn Bhd, Malaysia

"PRONTO-Xi, will benefit Hexza in many ways. Besides standardization of processes and operations, PRONTO-Xi will dramatically improve productivity, improve customer service, make us more competitive within the industry and bring in substantial savings by reducing company-wide operational costs across our multiple sites."

Jorma Haapala - Hexza Resins Division COO
Hexza Corp Bhd, Malaysia

"MBI has now been using PRONTO-Xi for the last two years. The implementation of PRONTO-Xi has resulted in vast improvement in Inventory Management, Invoicing, Production Management, General Accounting functions and Management Decision-Making Capabilities. The Integrated System provides the Management team with a better view of business activities at a strategic level and for daily operations."

Dr Christof Krogmann - Co Managing Director
Machino-Basell India Limited, India

"In today's competitive environment, where information is the key, PRONTO-Xi has been the deciding factor for us in generating information at our fingertips. This enables us to stay ahead of competition. We have been using PRONTO-Xi for more than a year now and since then our objective of making business practices system driven have been achieved. PRONTO-Xi is so user friendly that it is being used by people who were not computer literate a few months before the installation of PRONTO-Xi."

Deepak Gadre - Founder and CEO
Gadre Marine Export Ltd, India

"PRONTO-Xi Solution has met our expectations by improving productivity and efficiency dramatically. The real-time functionality of the PRONTO-Xi system particularly in the area of distribution system, has enabled our staff to make more informed decisions when advising clients and tracking delivery orders."

Douglas Eu Eng Hooi - General Manager
KDK Fans (M) Sdn Bhd, Malaysia

"PRONTO-Xi gives us a good overview of the company's operations. We can now see a complete history of stock status, customer orders, purchase order and delivery dates. The real-time functionality of the PRONTO-Xi system particularly in the area of inventory management, enables our staff to make more informed decisions when advising clients and tracking delivery orders."

Ms Chiang Wai Kuen - Regional Financial Controller
CompAir Far East Pte Ltd, Singapore

"PRONTO-Xi has improved our business productivity by integrating its various department processes. This includes online processing for sales, just-in-time production for manufacturing, inventory management for warehousing, and finally a fully inter-departmental integrated finance system."

Lilian Low - Accounting Manager
Toyochem (M) Sdn Bhd, Malaysia

"EWIS helped us a great deal by developing a Fixed Assets & Inventory Management system. Prior to the implementation of this project, FA & Inventory Management was done manually, and needless to say, this was a tedious task. However, today, the PRONTO-Xi system provided by EWIS which is integrated with our main banking system, helps 142 branches island-wide to complete their FA & Inventory related tasks effectively. Furthermore, PRONTO-Xi also gives us a more accurate view of our stock and therefore facilitates better forecasts for stock replenishments and movements. PRONTO-Xi Financial and Distribution Management covers all areas of operations from accounts, inventory, stock management and the management of the bank's estimated asset base of over Rs.9 billion. This has indeed enhanced our productivity and we are truly satisfied with the service it provides."

Siromi Wickramasinghe - Deputy General Manager, Senior Relationships
Hatton National Bank, Sri Lanka

"PRONTO-Xi is an excellent integrated system! It helps our company to settle our financial statements on time and tracking the stocks at any time any where. It enables us to get the stocks available when the need exists. As a result, we could gain the customer's trust and stand out from the competition. In addition, the support provided by our vendor, VPS.com Pte Ltd has allowed this system to operate 24-7 and thus, our productivity is well-ensured. No more worries about the integration of the information flows internally too! It is all thanks to the reliability of PRONTO-Xi."

Mr. Jeff Barker - Managing Director,
PT Fluidcon Jaya, Indonesia

"With the implementation of PRONTO-Xi, all Tomei employees will have full access to pertinent data such as sales analysis reports and customer information. Complete with an end-to-end integration, the management and employees at Tomei are empowered to make better informed decisions across the multi-site operations and throughout their entire supply chain resulting in improved operation efficiency internally as well as meeting store demands and excellent service delivery to all customers."

Ng Sheau Chyn - Executive Director,
Tomei Gold & Jewellery Holdings (M) Sdn Bhd, Malaysia
